

This is the letter written by Jody Ashton to Dr John Chalk in a direct attempt to interfere with and influence the Family Court matters in relation to his daughter Fiona. This document was Jody's work but was one of the weapons of #TeamTroll, as can be seen in the following screenshot of the original email.

Dr Chalk's your description of John Aster is true and correct.

John is mentally unstable.

I first encountered John Aster 10 years ago. I was 22 years of age and I was extremely naive and trusting. I was introduced to him by a man named Steve King, who I had been working for taking care of his house and his business AUSTECH whilst he was overseas. (Refer to:-

John and I, exchange ICQ numbers and had many conversations in which he offered me a job working for his company Aster & Associates Pty Ltd. We were flirtatious and formed a relationship, and I agreed to work for John under the delusion that I would make lots of money developing his website and initiating Senior Associates.

At that stage of my life I had been involved with a forum called Rape Recovery or Hope for Healing Org run by a lady named Gayle Crabtree, an American Baptise Church Pastors wife. It was my intention to build a Woman's Shelter in honour of her organisation with the money John said I would earn. (Refer to <http://www.hopeforhealing.org/> - <http://forums.delphiforums.com/rapehealing/> )

I worked day and night fixing his poorly run site, which resembled an amateurs website, and trying to initiate Senior Associates internationally with little sleep from John's personal home at 4 Barney Street, Arana Hills, not the home of self declared millionaire as claimed in his youtube clips (Refer to:- . \*\*\*\*\*)

*To describe John's house at the time would be to describe a sloth. I have never seen so many blow flies in one place, hanging around the internal stairwell and front door of his house and, although working from his home he allowed me limited access upstairs to use the kitchen facilities only.*

*There was a downstairs toilet and shower and two rooms linked to each other.*

*The first room contained a couple of desks with a few computers including my own, the second room contained a mattress on the floor and a computer. Adjoined to that room contained the internal stairwell a two door garage area and previously stated above, a toilet and shower. There where also two shipping containers located out the back, in which one John would go to, to retrieve condoms.*

*John and I engaged in constant sexual activities. I did not know at this time that John had married 'EK' whilst overseas in Korea. It wasn't until a few weeks after that John had shown me the pictures of his marriage to 'EK' however maintained it was purely for Business purposes and that he was helping her gain an Australian Visa because of the violence and conditions of her country and in particularly that 'because where she comes from, there is no grass'.*

*On the one occasion we went out, we went to meet two of my friends, Martin & Corrine Carol. At the time they where residing at Cathedral Place, in Brisbane's Fortitude Valley. From there we all went to a nightclub called "Heaven"*

I believed in John Aster, he was very convincing! I even had my friend Melina McKinlay give up her job of 3 years to work for Aster & Associates. However, for the weeks that I lived and worked for John and Aster & Associates, I received no payment for the work that I had done.

John Aster was full of promises yet these where ALL fantasies.

I was warned of John from many people, including family, friends and my parents whom John had met. That he wasn't who he claimed to be as firstly he was driving an old car \*\*\*\*make . Yet, he was Mr Charming & Mr Convincing and I guess I wanted to prove everyone wrong and I wanted to believe in him and my goal of opening a Woman's Shelter in the USA.

It wasn't until the day in which I attended the Brisbane District Court with John, where he was to testify on his own behalf in relation to an assault that took place where he was hospitalised, did I fully grasp the true character of John Aster.

I believe that it was 'thrown out of court' on the grounds of self defence as there where guns and riffles involved who John tried to access. I cannot recall the defendants name.

In the late afternoon/evening of that 'Court Case' I informed John that I was leaving. I started to pack up my belongings and went to call my father to pick me up as I had no license. John pulled the phone cord out of the wall, and turned to me as I was packing up my computer and said to me "So your not going to be my friend". I replied "No!" and he stepped towards me and tried to strangle me.

I was lucky to escape by pushing the Computer Box into him and ran out the downstairs sliding door. I also told John that I was pregnant, which I knew instinctively. I believe if I had not escaped John would have locked me in the downstairs linking room.

I ran about 900 metres to the first house that I could find with the lights on with the intention to seek assistance and for them to contact the Police.

Apparently, John was known to the occupants, although I had never previously met them, or had any association with them. They told me about another relationship that John had, had with a woman and her child whom they had seen

physically abuse, and I believe her to be living in Melbourne. This was told to the Police, by them, when they attended John's house in response to my pleas for them to call the Police. I do not know their names however I also believe that they would be able to be tracked down through 'Police Records' and that they would remember John Aster.

It was not until the Police attended that I was aware that John had an SAS Solider living upstairs, whilst I had been occupying the house also.

Although in a state of shock, I stated to the Police that John had tried to strangle me, when I tried to leave and that I was carrying his child. I also stated that John had tampered with my computer, and this was found to be proven when I got to my sisters' house whom I had called being the closest contact. John had in fact stolen the hard drive of my computer. This can be confirmed by Alex – of Metrolink. My previous local ISP and Website Hoster.

John tried to get me sign a contract ensuring EK's safe arrival to Australia in return for my hard drive, and to pay me, money due for work that I had done and contribute to Aster & Associates. The Police were contacted again in relation to this and I was able to retrieve my hard drive the next day. John also admitted to my sister, Tracey Brock that he tried to me, although he was very, very, sorry.

*"During my relationship with John, he would cry in his sleep and have nightmares. When I asked John about this he told me it was because he has shot 10 innocent people whilst serving in the Australian Army on a 'Peacekeeping' mission in Haiti under the directions of a US colonel, and claimed to be a "legal murderer".*

Upon confirmation that I was pregnant John threaten my intermediate family and I, with murder, and his own words "Bigger than the Haiti Massacre", should I not have a termination.

At the time, I was very frightened of John Aster, I was in shock, and believed him to be very capable of 'murder' should he not get his own way, and followed through with the termination at a Spring Hill Clinic.

I have not spoken to John Aster in over 10 years and only become aware of his \*\*\*\* in past 5 weeks.

I have contacted my local police at Wynnum, Constable Tully, my ex partner who is also a Police Office, Michelle Clarke, W02 Kelly Hammant - The Australian Army, The Legal Service of The Australian Army, Scam Watch, Erin Brockvich, and intend on contacting the Federal Magistrate Justice Denmark and, the media should the need be.

I am prepared to under go a lie detection test, release medical records and police reports in support of my claim. I am also willing to under go hypnotherapy.

I hope that in doing so, that at least I am able to help one person, if not expose John Aster's true character, which is not that of Woman's or Children's Advocate, or CEO of such organisation as AXJ. He is extremely delusional, a scammer, fraudster, "self confessed murderer" and an extremely dangerous man, that could easily snap at any time. He needs urgent medical attention for protection of our community.

Yours Sincerely,

Jody Ashton
